

# COSHH Assessments

COSHH stands for the Control of Substances Hazardous to Health Regulations. Using hazardous substances can put people's health at risk. COSHH requires employers to control exposures to hazardous substances to protect both employees and others who may be exposed from work activities. A COSHH assessment is an evaluation of the substances in a workplace, the risks they may present and the precautions that might need to be taken.

## Features Include

- Professionally Prepared Assessments – You know your assessments are correct
- Assessments on the substances you actually use – No unnecessary bureaucracy
- Fixed Price – Price certainty with no hidden costs

## Benefits Include

The Safetyexcel COSHH Assessment Service can help you:

- Demonstrate your compliance with the COSHH Regulations
